

# Guardians For Us Forum (GFUF)

A monthly meeting between young people and social care professionals.

You can share your experiences as a young person we care for and talk about the issues which matter most to you. You can use your experiences to challenge barriers and help create practical solutions to improve our services.

## Why Join?

- We listen and learn from you - your ideas feed into the corporate parenting board, which will report back so you see the impact of your involvement.
- Help shape policies to create change going forward for other young people.
- Hold us to account if we're not doing our best and tell us what's working and what needs to change.
- Get experience in working on solutions with people who can make change happen.

If you would like to join our Guardians For us Meetings or have a chat to find out more, please contact:
