

EET Support in Oxfordshire

Oxfordshire County Council has a responsibility to support young people by providing guidance and information in relation to education, employment and training, and by keeping in touch until the September after their 18th birthday.

Good to know: If you have an EHCP or are care experienced, we can continue to offer support until you turn 25.

Our aim is to empower young people to reach their full potential and improve their life chances by providing accessible services that target the most vulnerable and support those needing direction.

Step-by-step support

Read what the law says about school leaving age.

Step 1: Visit www.oxme.info for information around education, work opportunities, and health and wellbeing.

Step 2: Request support - support can be through a range of options including: in-person, helpline guidance and email advice.

Step 4: Ongoing contact - Help could be a one-off meeting, phone call, or you might work with one of our EET case workers. We also get in touch every 30 days with all young people aged 16-18 who are not in education, employment or training to offer assistance.

Step 3: Signposting, understanding your options, local support services, CV writing and application support, interview skills and preparation. We must have your consent before we start 1-1 work. Visit: www.oxme.info/neet to find out more!

Step 5: Change of plans - If a job, school, college, or other learning placement doesn't work out, we can offer support to help you get back into work or learning.
